

## It Takes a Village!

English High School relies on the support of a variety of non-profit organizations that provide opportunities for our students to engage in activities in and outside of the school day. Most of our Partner Organizations offer services to our community in one of four core areas:

- Academic Support
- Social Emotional and Wellness Support
- Arts opportunities
- Engagement with STEM
- Service Learning, internships, externships

Many of our partners are able to support EHS students through state and federal grant funding. If you are interested in becoming a partner to support our school community, please contact our Partnership Coordinator Esmirna Soto: [esoto@bostonpublicschools.org](mailto:esoto@bostonpublicschools.org)
